Top Silver Solar

AUTOMATIC ABOVE-GROUND SAFETY COVER

Ideal for renovations, Top Silver Solar is compatible with **any new or existing pool** and requires no work in the pool.

As an above-ground system, Top Silver Solar does not take up space in the pool and thus guarantees maximum swimming space. Composed of an **aluminium axle**, reel holders (your choice of colour) and solar panels, it offers excellent value for money. Its engine is located in the aluminium axle and offers **optimal performance** while remaining **silent**.

Top Silver Solar **combines** with PVC slats (83 mm with caps, anti-lift buckles and axle fastening straps) or, optional, with **polycarbonate slats**.

Technical features

Anodised aluminium axle
167 mm in diameter

Solar powered electric motor
with mechanical end stops.

Flexible installation
Fits all pools

Attached to coping
No intervention needed in the pool

Slatted PVC cover
83 mm wide slats, your choice of colour

Maximum swimming space
the system does not take up any space in the pool

Compatible with all
inground or above-ground pools up to 12 m

Stairs included
The cover fits to the **shape of the pool, including stairs**

Even more benefits of Top Silver Solar:

+ autonomous

No electrical connection or wiring is required.

+ eco friendly

Save money and help the planet with our above-ground solar powered drive system.

+ flexible

Top Silver Solar can be installed on any rectangular pool and provides maximum swimming space.
