# Under Island

## SUBMERGED BENCH WITH ATTACHMENT BRACKETS

A Covrex® exclusive. The Under Island system is revolutionary. It allows you to achieve the impossible and **add a beach** in a pool liner without **any drilling in the wall**, thanks to the brackets attached under the coping. It comes with or without a partition wall and easily works around skimmers and other existing elements.

Used in combination with Covrex® slats, the Under Island provides the best in terms of **safety** and **energy savings**, whether with Covrex® Solar and its exceptional heating properties, or with Covrex® Classic, which offers the best insulation coefficient on the market.

Located in the stainless steel axle, the engine offers **optimal performance** while remaining **silent**.

Like all Covrex® drive systems, the Under Island is made in Belgium using the **best quality** of stainless steel.

## Technical features

-  **Made of 316L stainless steel**  
Maximum service life
-  **A beach in the pool**  
Even adapts to liner pools
-  **Attaches under the coping**  
No drilling in the pool walls
-  **Submerged**  
and easy-to-maintain motor
-  **Invisible system**  
fully submerged under the water level
-  **Compatible with all pools**  
Up to 15 m in length
-  **Stairs included**  
The Covrex® cover fits to the shape of the pool, including stairs

## Even more benefits of the Under Island:

-  **swimming space**  
Installed at the bottom of the pool, the Under Island guarantees maximum swimming space.
-  **flexible**  
No wall drilling is required. Perfect to easily enjoy a beach in existing pools as well.
-  **stylish**  
The PVC panels can be covered with liner or mosaics to blend in with your pool.
